

Letter plate 4308

FOR EXTERIOR AND RAINPROOF DOORS

Door thickness range:

-60 mm

- This letter plate is adjusted for exterior rainproof doors.
- The construction of the letter plate counteracts penetration of water. The plate can be opened upwards and has a drip edge which helps to prevent water from entering.
- The letter plate is available in nickel plated brass surface, but can if requested also be delivered in fogged brass.
- Adjusted back plates are available for purchase.

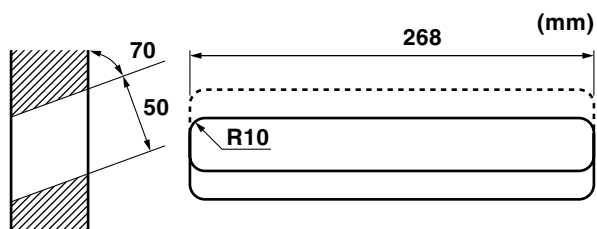

MENOVA

- Complete series of letter plates for both interior and exterior doors.
- Installation instructions for all products.
- Spare parts are available for all letter plates.
